'I wish to bring to the Council's attention the dangerous road traffic situation on the Banduff Road.

This road, which is in the vicinity of Cara Junior School, sees heavy traffic throughput daily, with many drivers not obeying the speed limit. Yet, there is no public bus service, no footpath on the Northern part of the road, and no pedestrian lights.

This situation poses a dangerous hazard to pedestrians, many of them schoolchildren.

Around one thousand families live in this area, and many are currently using a private bus service to bring their children to and from school, but these families are paying up to €250 per month for this service.

I call on the City Council to urgently address this situation, and to allow for the construction of a complete footpath on the road, with at least two full pedestrian crossings with lights.

In addition, I urge the City Council to call on Bus Eireann/NTA to immediately provide a badly needed public bus service on this road. This would help to greatly reduce the number of cars on the road, and would be of particular benefit to school children and their families.'

The New Zealand law means that anyone born after 2008 will never be able to buy cigarettes or tobacco products. Half of all smokers will die from smoking-related conditions. It will mean the number of people able to buy tobacco will shrink each year.'

(Proposer: Cllr. J. Sheehan 23/076)

29.5 **ENTRANCE TO JACOBS ISLAND**
